**2. GENERAL INFORMATION**

- A. WHO MUST FILE A RETURN. This Return (State Tax Form 5941) must be filed each year by all telephone or telegraph companies, including individuals, partnerships, associations, trusts, corporations, limited liability companies and other legal entities, that own taxable telephone and telegraph personal property, subject to valuation by the Commissioner of Revenue, situated in any city or town of the Commonwealth on January 1. OWNERS OF PROPERTY, NOT HOLDERS OF IRUs, MUST REPORT PERSONALTY. Cellular/mobile telecommunications service providers that do not provide substantial landline telephone services are not considered telephone or telegraph companies and are not subject to central valuation. Such companies must file a State Tax Form 2MT with local boards of assessors. Cellular/mobile telecommunications companies that also provide substantial landline telephone service must file Form 5941, 5941 Appendix and 5941 Appendix II to be considered for central valuation as a telephone or telegraph company. Any such company should also file Form 2MT with the local boards of assessors, but advise them that the company is seeking to be valued centrally as a telephone company.

**GENERAL INFORMATION (continued)**

- B. **WHEN AND WHERE RETURN MUST BE FILED.** Returns must be filed by March 1 with the Bureau of Local Assessment, P.O. Box 9569, Boston, MA 02114-9569. A return is not considered filed unless it is complete. The return must be submitted electronically in the Excel format requested to [bladata@dor.state.ma.us](mailto:bladata@dor.state.ma.us) along with a printed and signed copy. See Part 3 for taxable personal property subject to valuation by the Commissioner. **All returns must include Appendices I & II.**
- C. **PENALTY FOR FAILURE TO FILE OR FILING LATE.** If no return is filed for the fiscal year, the company will be barred from any appeal of the Commissioner's determination of value, unless the company was unable to comply for reasons beyond its control. G.L. c. 59, §41.
- D. **USE OF RETURN.** The Bureau of Local Assessment uses the information in the return to determine whether the property is subject to valuation by the Commissioner, and, if appropriate, its fair market value.
- E. **AUDITS.** The Commissioner of Revenue may audit your books, papers, records and other data in order to determine whether you have accurately reported all taxable personal property. Any audit will be conducted within 3 years of the date your return is due or filed, whichever is later. The Commissioner may certify an amended valuation for unreported or inaccurately reported taxable personal property discovered by the audit to the owner and the assessors of the city or town where the property is situated within 3 years and 6 months after the due date of the return or the date the return was filed, whichever is later. The board of assessors shall assess and commit to the collector of taxes an additional tax to the owner within 2 months of the date of the amended certification and the owner may appeal the valuation to the Appellate Tax Board within 1 month of the date the additional assessment notice is sent. G.L. c. 59, § 42A.

**3. TAXABLE PERSONAL PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER OF REVENUE**

The commissioner is required to value telephone and telegraph machinery, poles, wires, underground conduits, wires and pipes of telephone and telegraph companies owned as of January 1 preceding the filing date. G.L. c. 59, §39. **Lists of all other taxable personal property must be submitted to local boards of assessors in the municipalities in which the property is situated, under G.L. c. 59, §29. G.L. c. 59, §41.** Taxable property subject to central valuation will vary, depending on the legal form of ownership of the property. Corporations will be valued on all poles and wires over public and private property, underground conduits, wires and pipes in public or private property, and machinery used in manufacture or in supplying and distributing water. G.L. c. 59, §39; G.L. c. 59, §5, Cl. 16(1); & G.L. c. 59, §18(5). This particularly includes machinery used in the generation of electricity, including emergency and back up generators. Other legal entities will be valued by the commissioner on all poles, wires, underground conduits, wires and pipes situated in the commonwealth, and all machinery used for telephone and telegraph purposes. G.L. c. 59, §39; G.L. c. 59, §18. Property constructed and in service, cable without lit fiber (aka dark fiber or dark cable), construction work in progress (CWIP), spares and telephone property no longer in service but not yet removed is taxable and must be appropriately listed.

**4. INSTRUCTIONS FOR LISTING TAXABLE PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER**

List all items of taxable personal property subject to valuation by the Commissioner owned by the filing company on January 1 in printed attachments and in the prescribed Excel file format. **If any such property was reported by another telephone or telegraph company in the prior filing year, list it separately and provide the name and address of the former filing company.**

- A. **POLES, WIRES, UNDERGROUND CONDUITS, WIRES AND PIPES.** Wires include fiber optic cables, copper wires and other similar strands strung on poles or in conduit. List such property in each city or town in the format provided in the excel spreadsheet posted on the website. **Poles and Wires over Public Ways are to be included in the listing with those over private ways on the Property Schedule by selecting the correct pull-down description. (There is no longer a "Public Ways" label.)**
- B. **MACHINERY.** A generator is machinery used in manufacture and for telephone/telegraph purposes. Switching and routing equipment is machinery used in the conduct of business for telephone/telegraph purposes, not machinery used in manufacture. Please refer to the spreadsheet for a more expansive list of types of machinery, as the preceding is intended to be for illustrative purposes and is not exclusive.
- C. **ORIGINAL COST.** The total cost of the acquisition and commissioning of the property at the time of installation as part of the system. This cost includes the amount of money paid for the property in an arms length transaction and does not include allocated account entries as a result of acquisition by merger, take-over, bankruptcy or any other asset impaired accounting treatment. It also includes the amount of money paid by a third party if the third party transfers the property to the company for other consideration or by grant or gift, such as a contribution in aid of construction (CIAC). The total cost includes all direct and indirect costs and shall conform as closely as possible to the Federal Communications Commission uniform system of accounts under 47 CFR 32.2000 et seq, and particularly to 32.2000(a)(2, 3 & 4), (b)(2)(i & ii), (c)(2)(i - xiv), (f)(9)(ii), (i) and (j). In addition, report all construction work in progress (CWIP) as a separate account and all property acquired through contribution in aid of construction (CIAC) as a separate account.
- D. **NEW GROWTH.** Property that is new to a community this year, whether it is new, used or transferred from another community, must be listed separately on the asset list and an "X" must be placed in the appropriate column.

**5. SIGNATURE**

**SIGNATURE OF TREASURER.** A return must be signed and sworn to by the company's treasurer. This return and all accompanying lists and statements, including the Form 5941 Appendices, have been prepared or examined by me and include all taxable personal property subject to valuation by the Commissioner owned or held by the maker of this return on January 1st, and are true, correct and complete to the best of my knowledge and belief as required by G.L. c. 59, §41.

**2. GENERAL INFORMATION**

- A. WHO MUST FILE A RETURN. This Return (State Tax Form 5941) must be filed each year by all telephone or telegraph companies, including individuals, partnerships, associations, trusts, corporations, limited liability companies and other legal entities, that own taxable telephone and telegraph personal property, subject to valuation by the Commissioner of Revenue, situated in any city or town of the Commonwealth on January 1. OWNERS OF PROPERTY, NOT HOLDERS OF IRUs, MUST REPORT PERSONALTY. Cellular/mobile telecommunications service providers that do not provide substantial landline telephone services are not considered telephone or telegraph companies and are not subject to central valuation. Such companies must file a State Tax Form 2MT with local boards of assessors. Cellular/mobile telecommunications companies that also provide substantial landline telephone service must file Form 5941, 5941 Appendix and 5941 Appendix II to be considered for central valuation as a telephone or telegraph company. Any such company should also file Form 2MT with the local boards of assessors, but advise them that the company is seeking to be valued centrally as a telephone company.

**GENERAL INFORMATION (continued)**

- B. **WHEN AND WHERE RETURN MUST BE FILED.** Returns must be filed by March 1 with the Bureau of Local Assessment, P.O. Box 9569, Boston, MA 02114-9569. A return is not considered filed unless it is complete. The return must be submitted electronically in the Excel format requested to [bladata@dor.state.ma.us](mailto:bladata@dor.state.ma.us) along with a printed and signed copy. See Part 3 for taxable personal property subject to valuation by the Commissioner. **All returns must include Appendices I & II.**
- C. **PENALTY FOR FAILURE TO FILE OR FILING LATE.** If no return is filed for the fiscal year, the company will be barred from any appeal of the Commissioner's determination of value, unless the company was unable to comply for reasons beyond its control. G.L. c. 59, §41.
- D. **USE OF RETURN.** The Bureau of Local Assessment uses the information in the return to determine whether the property is subject to valuation by the Commissioner, and, if appropriate, its fair market value.
- E. **AUDITS.** The Commissioner of Revenue may audit your books, papers, records and other data in order to determine whether you have accurately reported all taxable personal property. Any audit will be conducted within 3 years of the date your return is due or filed, whichever is later. The Commissioner may certify an amended valuation for unreported or inaccurately reported taxable personal property discovered by the audit to the owner and the assessors of the city or town where the property is situated within 3 years and 6 months after the due date of the return or the date the return was filed, whichever is later. The board of assessors shall assess and commit to the collector of taxes an additional tax to the owner within 2 months of the date of the amended certification and the owner may appeal the valuation to the Appellate Tax Board within 1 month of the date the additional assessment notice is sent. G.L. c. 59, § 42A.

**3. TAXABLE PERSONAL PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER OF REVENUE**

The commissioner is required to value telephone and telegraph machinery, poles, wires, underground conduits, wires and pipes of telephone and telegraph companies owned as of January 1 preceding the filing date. G.L. c. 59, §39. **Lists of all other taxable personal property must be submitted to local boards of assessors in the municipalities in which the property is situated, under G.L. c. 59, §29. G.L. c. 59, §41.** Taxable property subject to central valuation will vary, depending on the legal form of ownership of the property. Corporations, and other legal entities treated as corporations for federal income tax purposes (not including disregarded entities), will be valued on all poles and wires over public and private property, underground conduits, wires and pipes in public or private property, and machinery used in manufacture or in supplying and distributing water. G.L. c. 59, §39; G.L. c. 59, §5, Cl. 16(1); & G.L. c. 59, §18(5). This particularly includes machinery used in the generation of electricity, including emergency and back up generators and uninterruptible power supplies (UPS) connected to the power generation and distribution system. Other legal entities will be valued by the commissioner on all poles, wires, underground conduits, wires and pipes situated in the commonwealth, and all machinery used for telephone and telegraph purposes. G.L. c. 59, §39; G.L. c. 59, §18. Property constructed and in service, cable without lit fiber (aka dark fiber or dark cable), construction work in progress (CWIP), spares and telephone property no longer in service but not yet removed is taxable and must be appropriately listed.

**4. INSTRUCTIONS FOR LISTING TAXABLE PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER**

List all items of taxable personal property subject to valuation by the Commissioner owned by the filing company on January 1 in printed attachments and in the prescribed Excel file format. **If any such property was reported by another telephone or telegraph company in the prior filing year, list it separately and provide the name and address of the former filing company.**

- A. **POLES, WIRES, UNDERGROUND CONDUITS, WIRES AND PIPES.** Wires include fiber optic cables, copper wires and other similar strands strung on poles or in conduit. List such property in each city or town in the format provided in the excel spreadsheet posted on the website. **Poles and Wires over Public Ways are to be included in the listing with those over private ways on the Property Schedule by selecting the correct pull-down description. (There is no longer a "Public Ways" label.)**
- B. **MACHINERY.** A generator is machinery used in manufacture and for telephone/telegraph purposes. Switching and routing equipment is machinery used in the conduct of business for telephone/telegraph purposes, not machinery used in manufacture. Please refer to the spreadsheet for a more expansive list of types of machinery, as the preceding is intended to be for illustrative purposes and is not exclusive.
- C. **HISTORICAL ORIGINAL COST.** The total cost of acquisition and commissioning of the property at installation as part of the system. This cost includes the amount of money paid for the property in an arms length transaction and does not include allocated account entries as a result of acquisition by merger, take-over, bankruptcy or any other asset impaired accounting treatment. It also includes the amount of money paid by a third party if the third party transfers the property to the company for other consideration or by grant or gift, such as a contribution in aid of construction (CIAC). The total cost includes all direct and indirect costs and shall conform as closely as possible to the Federal Communications Commission uniform system of accounts under 47 CFR 32.2000 et seq, and particularly to 32.2000(a)(2, 3 & 4), (b)(2)(i & ii), (c)(2)(i - xiv), (f)(9)(ii), (i) and (j). In addition, report all construction work in progress (CWIP) as a separate account and all property acquired through contribution in aid of construction (CIAC) as a separate account.
- D. **NEW GROWTH.** Property that is new to a community this year, whether it is new, used or transferred from another community, must be listed separately on the asset list and an "X" must be placed in the appropriate column.

**5. SIGNATURE**

**SIGNATURE OF TREASURER.** A return must be signed and sworn to by the company's treasurer. This return and all accompanying lists and statements, including the Form 5941 Appendices, have been prepared or examined by me and include all taxable personal property subject to valuation by the Commissioner owned or held by the maker of this return on January 1st, and are true, correct and complete to the best of my knowledge and belief as required by G.L. c. 59, §41.

**2. GENERAL INFORMATION**

- A. WHO MUST FILE A RETURN. This Return (State Tax Form 5941) must be filed each year by all telephone or telegraph companies, including individuals, partnerships, associations, trusts, corporations, limited liability companies and other legal entities, that own taxable telephone and telegraph personal property, subject to valuation by the Commissioner of Revenue, situated in any city or town of the Commonwealth on January 1. OWNERS OF PROPERTY, NOT HOLDERS OF IRUs, MUST REPORT PERSONALTY. Cellular/mobile telecommunications service providers that do not provide substantial landline telephone services are not considered telephone or telegraph companies and are not subject to central valuation. Such companies must file a State Tax Form 2MT with local boards of assessors. Cellular/mobile telecommunications companies that also provide substantial landline telephone service must file Form 5941, 5941 Appendix and 5941 Appendix II to be considered for central valuation as a telephone or telegraph company. Any such company should also file Form 2MT with the local boards of assessors, but advise them that the company is seeking to be valued centrally as a telephone company.

**GENERAL INFORMATION (continued)**

- B. **WHEN AND WHERE RETURN MUST BE FILED.** Returns must be filed by March 1 with the Bureau of Local Assessment, P.O. Box 9569, Boston, MA 02114-9569. A return is not considered filed unless it is complete. The return must be submitted electronically in the Excel format requested to [bladata@dor.state.ma.us](mailto:bladata@dor.state.ma.us) along with a printed and signed copy. See Part 3 for taxable personal property subject to valuation by the Commissioner. **All returns must include Appendices I & II.**
- C. **PENALTY FOR FAILURE TO FILE OR FILING LATE.** If no return is filed for the fiscal year, the company will be barred from any appeal of the Commissioner's determination of value, unless the company was unable to comply for reasons beyond its control. G.L. c. 59, §41.
- D. **USE OF RETURN.** The Bureau of Local Assessment uses the information in the return to determine whether the property is subject to valuation by the Commissioner, and, if appropriate, its fair market value.
- E. **AUDITS.** The Commissioner of Revenue may audit your books, papers, records and other data in order to determine whether you have accurately reported all taxable personal property. Any audit will be conducted within 3 years of the date your return is due or filed, whichever is later. The Commissioner may certify an amended valuation for unreported or inaccurately reported taxable personal property discovered by the audit to the owner and the assessors of the city or town where the property is situated within 3 years and 6 months after the due date of the return or the date the return was filed, whichever is later. The board of assessors shall assess and commit to the collector of taxes an additional tax to the owner within 2 months of the date of the amended certification and the owner may appeal the valuation to the Appellate Tax Board within 1 month of the date the additional assessment notice is sent. G.L. c. 59, § 42A.

**3. TAXABLE PERSONAL PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER OF REVENUE**

The commissioner is required to value telephone and telegraph machinery, poles, wires, underground conduits, wires and pipes of telephone and telegraph companies owned as of January 1 preceding the filing date. G.L. c. 59, §39. Lists of all other taxable personal property must be submitted to local boards of assessors in the municipalities in which the property is situated, under G.L. c. 59, §29. G.L. c. 59, §41. Taxable property subject to central valuation will vary, depending on the legal form of ownership of the property. Corporations, and other legal entities treated as corporations for federal income tax purposes (not including disregarded entities), will be valued on all poles and wires over public and private property, underground conduits, wires and pipes in public or private property, and machinery used in manufacture or in supplying and distributing water. G.L. c. 59, §39; G.L. c. 59, §5, Cl. 16(1); & G.L. c. 59, §18(5). This particularly includes machinery used in the generation of electricity, including emergency and back up generators and uninterruptible power supplies (UPS) connected to the power generation and distribution system. Other legal entities will be valued by the commissioner on all poles, wires, underground conduits, wires and pipes situated in the commonwealth, and all machinery used for telephone and telegraph purposes. G.L. c. 59, §39; G.L. c. 59, §18. Property constructed and in service, cable without lit fiber (aka dark fiber or dark cable), construction work in progress (CWIP), spares and telephone property no longer in service but not yet removed is taxable and must be appropriately listed.

**4. INSTRUCTIONS FOR LISTING TAXABLE PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER**

List all items of taxable personal property subject to valuation by the Commissioner owned by the filing company on January 1 in printed attachments and in the prescribed Excel file format. If any such property was reported by another telephone or telegraph company in the prior filing year, list it separately and provide the name and address of the former filing company.

- A. **POLES, WIRES, UNDERGROUND CONDUITS, WIRES AND PIPES.** Wires include fiber optic cables, copper wires and other similar strands strung on poles or in conduit. List such property in each city or town in the format provided in the excel spreadsheet posted on the website. Poles and Wires over Public Ways are to be included in the listing with those over private ways on the Property Schedule by selecting the correct pull-down description. (There is no longer a "Public Ways" label.)
- B. **MACHINERY.** A generator, or uninterruptable power supply (UPS), is machinery used in manufacture and for telephone/telegraph purposes. Switching and routing equipment is machinery used in the conduct of business for telephone/telegraph purposes, not machinery used in manufacture. Please refer to the spreadsheet for a more expansive list of types of machinery, as the preceding is intended to be for illustrative purposes and is not exclusive.
- C. **HISTORICAL ORIGINAL COST.** The total cost of acquisition and commissioning of the property at installation as part of the system. This cost includes the amount of money paid for the property in an arms length transaction and does not include allocated account entries as a result of acquisition by merger, take-over, bankruptcy or any other asset impaired accounting treatment. It also includes the amount of money paid by a third party if the third party transfers the property to the company for other consideration or by grant or gift, such as a contribution in aid of construction (CIAC). The total cost includes all direct and indirect costs and shall conform as closely as possible to the Federal Communications Commission uniform system of accounts under 47 CFR 32.2000 et seq, and particularly to 32.2000(a)(2, 3 & 4), (b)(2)(i & ii), (c)(2)(i - xiv), (f)(9)(ii), (i) and (j). In addition, report all construction work in progress (CWIP) as a separate account and all property acquired through contribution in aid of construction (CIAC) as a separate account.
- D. **NEW GROWTH.** Property that is new to a community this year, whether it is new, used or transferred from another community, must be listed separately on the asset list and an "X" must be placed in the appropriate column.

**5. SIGNATURE**

**SIGNATURE OF TREASURER.** A return must be signed and sworn to by the company's treasurer.

This return and all accompanying lists and statements, including the Form 5941 Appendices, have been prepared or examined by me and include all taxable personal property subject to valuation by the Commissioner owned or held by the maker of this return on January 1st, and are true, correct and complete to the best of my knowledge and belief as required by G.L. c. 59, §41.

**2. GENERAL INFORMATION**

- A. WHO MUST FILE A RETURN. This Return (State Tax Form 5941) must be filed each year by all telephone or telegraph companies, including individuals, partnerships, associations, trusts, corporations, limited liability companies and other legal entities, that own taxable telephone and telegraph personal property, subject to valuation by the Commissioner of Revenue, situated in any city or town of the Commonwealth on January 1. OWNERS OF PROPERTY, NOT HOLDERS OF IRUs, MUST REPORT PERSONALTY. Cellular/mobile telecommunications service providers that do not provide substantial landline telephone services are not considered telephone or telegraph companies and are not subject to central valuation. Such companies must file a State Tax Form 2MT with local boards of assessors. Cellular/mobile telecommunications companies that also provide substantial landline telephone service must file Form 5941, 5941 Appendix and 5941 Appendix II to be considered for central valuation as a telephone or telegraph company. Any such company should also file Form 2MT with the local boards of assessors, but advise them that the company is seeking to be valued centrally as a telephone company.

**GENERAL INFORMATION (continued)**

- B. **WHEN AND WHERE RETURN MUST BE FILED.** Returns must be filed by March 1 with the Bureau of Local Assessment, P.O. Box 9569, Boston, MA 02114-9569. A return is not considered filed unless it is complete. The return must be submitted electronically in the Excel format requested to [bladata@dor.state.ma.us](mailto:bladata@dor.state.ma.us) along with a printed and signed copy. See Part 3 for taxable personal property subject to valuation by the Commissioner. **All returns must include Appendices I & II.**
- C. **PENALTY FOR FAILURE TO FILE OR FILING LATE.** If no return is filed for the fiscal year, the company will be barred from any appeal of the Commissioner's determination of value, unless the company was unable to comply for reasons beyond its control. G.L. c. 59, §41.
- D. **USE OF RETURN.** The Bureau of Local Assessment uses the information in the return to determine whether the property is subject to valuation by the Commissioner, and, if appropriate, its fair market value.
- E. **AUDITS.** The Commissioner of Revenue may audit your books, papers, records and other data in order to determine whether you have accurately reported all taxable personal property. Any audit will be conducted within 3 years of the date your return is due or filed, whichever is later. The Commissioner may certify an amended valuation for unreported or inaccurately reported taxable personal property discovered by the audit to the owner and the assessors of the city or town where the property is situated within 3 years and 6 months after the due date of the return or the date the return was filed, whichever is later. The board of assessors shall assess and commit to the collector of taxes an additional tax to the owner within 2 months of the date of the amended certification and the owner may appeal the valuation to the Appellate Tax Board within 1 month of the date the additional assessment notice is sent. G.L. c. 59, § 42A.

**3. TAXABLE PERSONAL PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER OF REVENUE**

The commissioner is required to value telephone and telegraph machinery, poles, wires, underground conduits, wires and pipes of telephone and telegraph companies owned as of January 1 preceding the filing date. G.L. c. 59, §39. Lists of all other taxable personal property must be submitted to local boards of assessors in the municipalities in which the property is situated, under G.L. c. 59, §29. G.L. c. 59, §41. Taxable property subject to central valuation will vary, depending on the legal form of ownership of the property. Corporations, and other legal entities treated as corporations for federal income tax purposes (not including disregarded entities), will be valued on all poles and wires over public and private property, underground conduits, wires and pipes in public or private property, and machinery used in manufacture or in supplying and distributing water. G.L. c. 59, §39; G.L. c. 59, §5, Cl. 16(1); & G.L. c. 59, §18(5). This particularly includes machinery used in the generation of electricity, including emergency and back up generators and uninterruptible power supplies (UPS) connected to the power generation and distribution system. Other legal entities will be valued by the commissioner on all poles, wires, underground conduits, wires and pipes situated in the commonwealth, and all machinery used for telephone and telegraph purposes. G.L. c. 59, §39; G.L. c. 59, §18. Property constructed and in service, cable without lit fiber (aka dark fiber or dark cable), construction work in progress (CWIP), spares and telephone property no longer in service but not yet removed is taxable and must be appropriately listed.

**4. INSTRUCTIONS FOR LISTING TAXABLE PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER**

List all items of taxable personal property subject to valuation by the Commissioner owned by the filing company on January 1 in printed attachments and in the prescribed Excel file format. If any such property was reported by another telephone or telegraph company in the prior filing year, list it separately and provide the name and address of the former filing company.

- A. **POLES, WIRES, UNDERGROUND CONDUITS, WIRES AND PIPES.** Wires include fiber optic cables, copper wires and other similar strands strung on poles or in conduit. List such property in each city or town in the format provided in the excel spreadsheet posted on the website. Poles and Wires over Public Ways are to be included in the listing with those over private ways on the Property Schedule by selecting the correct pull-down description. (There is no longer a "Public Ways" label.)
- B. **MACHINERY.** A generator, or uninterruptable power supply (UPS), is machinery used in manufacture and for telephone/ telegraph purposes. Switching and routing equipment is machinery used in the conduct of business for telephone/ telegraph purposes, not machinery used in manufacture. Please refer to the spreadsheet for a more expansive list of types of machinery, as the preceding is intended to be for illustrative purposes and is not exclusive.
- C. **HISTORICAL ORIGINAL COST.** The total cost of acquisition and commissioning of the property at installation as part of the system. This cost includes the amount of money paid for the property in an arms length transaction and does not include allocated account entries as a result of acquisition by merger, take-over, bankruptcy or any other asset impaired accounting treatment. It also includes the amount of money paid by a third party if the third party transfers the property to the company for other consideration or by grant or gift, such as a contribution in aid of construction (CIAC). The total cost includes all direct and indirect costs and shall conform as closely as possible to the Federal Communications Commission uniform system of accounts under 47 CFR 32.2000 et seq, and particularly to 32.2000(a)(2, 3 & 4), (b)(2)(i & ii), (c)(2)(i - xiv), (f)(9)(ii), (i) and (j). In addition, report all construction work in progress (CWIP) as a separate account and all property acquired through contribution in aid of construction (CIAC) as a separate account.
- D. **NEW GROWTH.** Property that is new to a community this year, whether it is new, used or transferred from another community, must be listed separately on the asset list and an "X" must be placed in the appropriate column.

**5. SIGNATURE**

**SIGNATURE OF TREASURER.** A return must be signed and sworn to by the company's treasurer. This return and all accompanying lists and statements, including the Form 5941 Appendices, have been prepared or examined by me and include all taxable personal property subject to valuation by the Commissioner owned or held by the maker of this return on January 1st, and are true, correct and complete to the best of my knowledge and belief as required by G.L. c. 59, §41.

**2. GENERAL INFORMATION**

- A. **WHO MUST FILE A RETURN.** This Return (State Tax Form 5941) must be filed each year by all telephone companies, including individuals, partnerships, associations, trusts, corporations, limited liability companies and other legal entities, that own taxable telephone personal property, subject to valuation by the Commissioner of Revenue, situated in any city or town of the Commonwealth on January 1. OWNERS OF PROPERTY, NOT HOLDERS OF IRUs, MUST REPORT PERSONALTY. Cellular/mobile telecommunications service providers that do not provide substantial landline telephone services are not considered telephone companies and are not subject to central valuation. Such companies must file a State Tax Form 2MT with local boards of assessors. Cellular/mobile telecommunications companies that also provide substantial landline telephone service must file Form 5941, 5941 Appendix and 5941 Appendix II to be considered for central valuation as a telephone company. Any such company should also file Form 2MT with the local boards of assessors, but advise them that the company is seeking to be valued centrally as a telephone company.

**GENERAL INFORMATION (continued)**

- B. **WHEN AND WHERE RETURN MUST BE FILED.** Returns must be filed by March 1 with the Bureau of Local Assessment, P.O. Box 9569, Boston, MA 02114-9569. A return is not considered filed unless it is complete. The return must be submitted electronically in the Excel format requested to [bladata@dor.state.ma.us](mailto:bladata@dor.state.ma.us) along with a printed and signed copy. See Part 3 for taxable personal property subject to valuation by the Commissioner. All returns must include Appendices I & II.
- C. **PENALTY FOR FAILURE TO FILE OR FILING LATE.** If no return is filed for the fiscal year, the company will be barred from any appeal of the Commissioner's determination of value, unless the company was unable to comply for reasons beyond its control. G.L. c. 59, §41.
- D. **USE OF RETURN.** The Bureau of Local Assessment uses the information in the return to determine whether the property is subject to valuation by the Commissioner, and, if appropriate, its fair market value.
- E. **AUDITS.** The Commissioner of Revenue may audit your books, papers, records and other data in order to determine whether you have accurately reported all taxable personal property. Any audit will be conducted within 3 years of the date your return is due or filed, whichever is later. The Commissioner may certify an amended valuation for unreported or inaccurately reported taxable personal property discovered by the audit to the owner and the assessors of the city or town where the property is situated within 3 years and 6 months after the due date of the return or the date the return was filed, whichever is later. The board of assessors shall assess and commit to the collector of taxes an additional tax to the owner within 2 months of the date of the amended certification and the owner may appeal the valuation to the Appellate Tax Board within 1 month of the date the additional assessment notice is sent. G.L. c. 59, § 42A.

**3. TAXABLE PERSONAL PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER OF REVENUE**

The commissioner is required to value telephone machinery, poles, wires, underground conduits, wires and pipes of telephone companies owned as of January 1 preceding the filing date. G.L. c. 59, §39. Lists of all other taxable personal property must be submitted to local boards of assessors in the municipalities in which the property is situated, under G.L. c. 59, §29, G.L. c. 59, §41. Taxable property subject to central valuation will vary, depending on the legal form of ownership of the property. Corporations, and other legal entities treated as corporations for federal income tax purposes (not including disregarded entities), will be valued on all poles and wires over public and private property, underground conduits, wires and pipes in public or private property, and machinery used in manufacture or in supplying and distributing water. G.L. c. 59, §39; G.L. c. 59, §5, Cl. 16(1); & G.L. c. 59, §18(5). This particularly includes machinery used in the generation of electricity, including emergency and back up generators and uninterruptible power supplies (UPS) connected to the power generation and distribution system. Other legal entities will be valued by the commissioner on all poles, wires, underground conduits, wires and pipes situated in the commonwealth, and all machinery used for telephone purposes. G.L. c. 59, §39; G.L. c. 59, §18. Property constructed and in service, cable without lit fiber (aka dark fiber or dark cable), construction work in progress (CWIP), spares and telephone property no longer in service but not yet removed is taxable and must be appropriately listed.

**4. INSTRUCTIONS FOR LISTING TAXABLE PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER**

List all items of taxable personal property subject to valuation by the Commissioner owned by the filing company on January 1 in printed attachments and in the prescribed Excel file format. If any such property was reported by another telephone company in the prior filing year, list it separately and provide the name and address of the former filing company.

- A. **POLES, WIRES, UNDERGROUND CONDUITS, WIRES AND PIPES.** Wires include fiber optic cables, copper wires and other similar strands strung on poles or in conduit. List such property in each city or town in the format provided in the excel spreadsheet posted on the website. Poles and Wires over Public Ways are to be included in the listing with those over private ways on the Property Schedule by selecting the correct pull-down description. (There is no longer a "Public Ways" label.)
- B. **MACHINERY.** A generator, or uninterruptible power supply (UPS), is machinery used in manufacture and for telephone purposes. Switching and routing equipment is machinery used in the conduct of business for telephone purposes, not machinery used in manufacture. Please refer to the spreadsheet for a more expansive list of types of machinery, as the preceding is intended to be for illustrative purposes and is not exclusive.
- C. **PROPERTY RETIRED FROM SERVICE.** Reported property completely mechanically disconnected, completely abandoned, or permanently removed from any service in the operation of a telecommunications network. The date of retirement is the date the reported property is eliminated from use or service.
- D. **HISTORICAL ORIGINAL COST.** The total cost of acquisition and commissioning of the property at installation as part of the system. This cost includes the amount of money paid for the property in an arms length transaction and does not include allocated account entries as a result of acquisition by merger, take-over, bankruptcy or any other asset impaired accounting treatment. It also includes the amount of money paid by a third party if the third party transfers the property to the company for other consideration or by grant or gift, such as a contribution in aid of construction (CIAC). The total cost includes all direct and indirect costs and shall conform as closely as possible to the Federal Communications Commission uniform system of accounts under 47 CFR 32.2000 et seq, and particularly to 32.2000(a)(2, 3 & 4), (b)(2)(i & ii), (c)(2)(i - xiv), (f)(9)(ii), (i) and (j). In addition, report all construction work in progress (CWIP) as a separate account and all property acquired through contribution in aid of construction (CIAC) as a separate account.
- E. **NEW GROWTH.** Property that is new to a community this year, whether it is new, used or transferred from another community, must be listed separately on the asset list and an "X" must be placed in the appropriate column.

**5. SIGNATURE**

**SIGNATURE OF TREASURER.** A return must be signed and sworn to by the company's treasurer.

This return and all accompanying lists and statements, including the Form 5941 Appendices, have been prepared or examined by me and include all taxable personal property subject to valuation by the Commissioner owned or held by the maker of this return on January 1st, and are true, correct and complete to the best of my knowledge and belief as required by G.L. c. 59, §41.

Subscribed this 26<sup>th</sup> day of February under the penalties of perjury.

## 9. INCOME AVAILABLE FOR RETURN AND CALCULATION OF RATE BASE

1. All columns must be filled in for those companies whose toll settlements are based on actual cost. Companies that receive toll settlements on the basis of average cost need to complete columns (b) through (e).

2. The totals as reported on this schedule should conform with amounts reported on corresponding schedules.

3. Include in column (g), Part 36 interstate amounts and any reconciliation of New York State amounts.

4. Include on Line 27 any adjustments needed for items includable in Earnings Available for Rate of Return calculation purposes which are not includable in the lines above (e.g. tax imputation for imputed interest, etc.)

Please identify and explain.

**2. GENERAL INFORMATION**

- A. **WHO MUST FILE A RETURN.** This Return (State Tax Form 5941) must be filed each year by all telephone companies, including individuals, partnerships, associations, trusts, corporations, limited liability companies and other legal entities, that own taxable telephone personal property, subject to valuation by the Commissioner of Revenue, situated in any city or town of the Commonwealth on January 1. OWNERS OF PROPERTY, NOT HOLDERS OF IRUs, MUST REPORT PERSONALTY. Cellular/mobile telecommunications service providers that do not provide substantial landline telephone services are not considered telephone companies and are not subject to central valuation. Such companies must file a State Tax Form 2MT with local boards of assessors. Cellular/mobile telecommunications companies that also provide substantial landline telephone service must file Form 5941, 5941 Appendix and 5941 Appendix II to be considered for central valuation as a telephone company. Any such company should also file Form 2MT with the local boards of assessors, but advise them that the company is seeking to be valued centrally as a telephone company.

**GENERAL INFORMATION (continued)**

- B. **WHEN AND WHERE RETURN MUST BE FILED.** Returns must be filed by March 1 with the Bureau of Local Assessment, P.O. Box 9569, Boston, MA 02114-9569. A return is not considered filed unless it is complete. The return must be submitted electronically in the Excel format requested to [bladata@dor.state.ma.us](mailto:bladata@dor.state.ma.us) along with a printed and signed copy. See Part 3 for taxable personal property subject to valuation by the Commissioner. All returns must include Appendices I & II.
- C. **PENALTY FOR FAILURE TO FILE OR FILING LATE.** If no return is filed for the fiscal year, the company will be barred from any appeal of the Commissioner's determination of value, unless the company was unable to comply for reasons beyond its control. G.L. c. 59, §41.
- D. **USE OF RETURN.** The Bureau of Local Assessment uses the information in the return to determine whether the property is subject to valuation by the Commissioner, and, if appropriate, its fair market value.
- E. **AUDITS.** The Commissioner of Revenue may audit your books, papers, records and other data in order to determine whether you have accurately reported all taxable personal property. Any audit will be conducted within 3 years of the date your return is due or filed, whichever is later. The Commissioner may certify an amended valuation for unreported or inaccurately reported taxable personal property discovered by the audit to the owner and the assessors of the city or town where the property is situated within 3 years and 6 months after the due date of the return or the date the return was filed, whichever is later. The board of assessors shall assess and commit to the collector of taxes an additional tax to the owner within 2 months of the date of the amended certification and the owner may appeal the valuation to the Appellate Tax Board within 1 month of the date the additional assessment notice is sent. G.L. c. 59, § 42A.

**3. TAXABLE PERSONAL PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER OF REVENUE**

The commissioner is required to value telephone machinery, poles, wires, underground conduits, wires and pipes of telephone companies owned as of January 1 preceding the filing date. G.L. c. 59, §39. Lists of all other taxable personal property must be submitted to local boards of assessors in the municipalities in which the property is situated, under G.L. c. 59, §29. G.L. c. 59, §41. Taxable property subject to central valuation will vary, depending on the legal form of ownership of the property. Corporations, and other legal entities treated as corporations for federal income tax purposes (not including disregarded entities), will be valued on all poles and wires over public and private property, underground conduits, wires and pipes in public or private property, and machinery used in manufacture or in supplying and distributing water. G.L. c. 59, §39; G.L. c. 59, §5, Cl. 16(1); & G.L. c. 59, §18(5). This particularly includes machinery used in the generation of electricity, including emergency and back up generators and uninterruptible power supplies (UPS) connected to the power generation and distribution system. Other legal entities will be valued by the commissioner on all poles, wires, underground conduits, wires and pipes situated in the commonwealth, and all machinery used for telephone purposes. G.L. c. 59, §39; G.L. c. 59, §18. Property constructed and in service, cable without lit fiber (aka dark fiber or dark cable), construction work in progress (CWIP), spares and telephone property no longer in service but not yet removed is taxable and must be appropriately listed.

**4. INSTRUCTIONS FOR LISTING TAXABLE PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER**

List all items of taxable personal property subject to valuation by the Commissioner owned by the filing company on January 1 in printed attachments and in the prescribed Excel file format. If any such property was reported by another telephone company in the prior filing year, list it separately and provide the name and address of the former filing company.

- A. **POLES, WIRES, UNDERGROUND CONDUITS, WIRES AND PIPES.** Wires include fiber optic cables, copper wires and other similar strands strung on poles or in conduit. List such property in each city or town in the format provided in the excel spreadsheet posted on the website. Poles and Wires over Public Ways are to be included in the listing with those over private ways on the Property Schedule by selecting the correct pull-down description. (There is no longer a "Public Ways" label.)
- B. **MACHINERY.** A generator, or uninterruptible power supply (UPS), is machinery used in manufacture and for telephone purposes. Switching and routing equipment is machinery used in the conduct of business for telephone purposes, not machinery used in manufacture. Please refer to the spreadsheet for a more expansive list of types of machinery, as the preceding is intended to be for illustrative purposes and is not exclusive.
- C. **PROPERTY RETIRED FROM SERVICE.** Reported property completely mechanically disconnected, completely abandoned, or permanently removed from any service in the operation of a telecommunications network. The date of retirement is the date the reported property is eliminated from use or service.
- D. **HISTORICAL ORIGINAL COST.** The total cost of acquisition and commissioning of the property at installation as part of the system. This cost includes the amount of money paid for the property in an arms length transaction and does not include allocated account entries as a result of acquisition by merger, take-over, bankruptcy or any other asset impaired accounting treatment. It also includes the amount of money paid by a third party if the third party transfers the property to the company for other consideration or by grant or gift, such as a contribution in aid of construction (CIAC). The total cost includes all direct and indirect costs and shall conform as closely as possible to the Federal Communications Commission uniform system of accounts under 47 CFR 32.2000 et seq, and particularly to 32.2000(a)(2, 3 & 4), (b)(2)(i & ii), (c)(2)(i - xiv), (f)(9)(ii), (i) and (j). In addition, report all construction work in progress (CWIP) as a separate account and all property acquired through contribution in aid of construction (CIAC) as a separate account.
- E. **NEW GROWTH.** Property that is new to a community this year, whether it is new, used or transferred from another community, must be listed separately on the asset list and an "X" must be placed in the appropriate column.

**5. SIGNATURE**

**SIGNATURE OF TREASURER.** A return must be signed and sworn to by the company's treasurer.

This return and all accompanying lists and statements, including the Form 5941 Appendices, have been prepared or examined by me and include all taxable personal property subject to valuation by the Commissioner owned or held by the maker of this return on January 1st, and are true, correct and complete to the best of my knowledge and belief as required by G.L. c. 59, §41.

Subscribed this 28<sup>th</sup> day of February under the penalties of perjury.

**2. GENERAL INFORMATION**

- A. **WHO MUST FILE A RETURN.** This Return (State Tax Form 5941) must be filed each year by all telephone or telegraph companies, including individuals, partnerships, associations, trusts, corporations, limited liability companies and other legal entities, that own taxable telephone and telegraph personal property, subject to valuation by the Commissioner of Revenue, situated in any city or town of the Commonwealth on January 1. OWNERS OF PROPERTY, NOT HOLDERS OF IRUs, MUST REPORT PERSONALTY. Cellular/mobile telecommunications service providers that do not provide substantial landline telephone services are not considered telephone or telegraph companies and are not subject to central valuation. Such companies must file a State Tax Form 2MT with local boards of assessors. Cellular/mobile telecommunications companies that also provide substantial landline telephone service must file Form 5941, 5941 Appendix and 5941 Appendix II to be considered for central valuation as a telephone or telegraph company. Any such company should also file Form 2MT with the local boards of assessors, but advise them that the company is seeking to be valued centrally as a telephone company.

GENERAL INFORMATION (continued)	
<b>B.</b>	<b>WHEN AND WHERE RETURN MUST BE FILED.</b> Returns must be filed by March 1 with the Bureau of Local Assessment, PO Box 9569 Boston, MA 02114-9569. A return is not considered filed unless it is complete. The return must be submitted electronically in the Excel format requested to <a href="mailto:blodata@do.state.ma.us">blodata@do.state.ma.us</a> along with a printed and signed copy. See Part 3 for taxable personal property subject to valuation by the Commissioner. <u>All returns must include Appendix I &amp; II.</u>
<b>C.</b>	<b>PENALTY FOR FAILURE TO FILE OR FILING LATE.</b> If no return is filed for the fiscal year, the company will be barred from any appeal of the Commissioner's determination of value, unless the company was unable to comply for reasons beyond its control G.L. c. 59, §41.
<b>D.</b>	<b>USE OF RETURN.</b> The Bureau of Local Assessment uses the information in the return to determine whether the property is subject to valuation by the Commissioner, and, if appropriate, its fair market value.
<b>E.</b>	<b>AUDITS.</b> The Commissioner of Revenue may audit your books, papers, records and other data in order to determine whether you have accurately reported all taxable personal property. Any audit will be conducted within 3 years of the date your return is due or filed, whichever is later. The Commissioner may certify an amended valuation for unreported or inaccurately reported taxable personal property discovered by the audit to the owner and the assessors of the city or town where the property is situated within 3 years and 6 months after the due date of the return or the date the return was filed, whichever is later. The board of assessors shall assess and commit to the collector of taxes an additional tax to the owner within 2 months of the date of the amended certification and the owner may appeal the valuation to the Appellate Tax Board within 1 month of the date the additional assessment notice is sent. G.L. c. 59, § 42A.
<b>3. TAXABLE PERSONAL PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER OF REVENUE</b>	
<p>The commissioner is required to value telephone and telegraph machinery, poles, wires, underground conduits, wires and pipes of telephone and telegraph companies owned as of January 1 preceding the filing date. G.L. c. 59, §39. Lists of all other taxable personal property must be submitted to local boards of assessors in the municipalities in which the property is situated, under G.L. c. 59, §29. G.L. c. 59, §41. Taxable property subject to central valuation will vary, depending on the legal form of ownership of the property. Corporations will be valued on all poles and wires over public and private property, underground conduits, wires and pipes in public or private property, and machinery used in manufacture or in supplying and distributing water. G.L. c. 59, §39; G.L. c. 59, §5, Cl. 16(1); &amp; G.L. c. 59, §18(5). This particularly includes machinery used in the generation of electricity, including emergency and back up generators. Other legal entities will be valued by the commissioner on all poles, wires, underground conduits, wires and pipes situated in the commonwealth, and all machinery used for telephone and telegraph purposes. G.L. c. 59, §39; G.L. c. 59, §18. Property constructed and in service, cable without lit fiber (aka dark fiber or dark cable), construction work in progress (CWIP), spares and property no longer in service but not yet removed is taxable and must be appropriately listed.</p>	
<b>4. INSTRUCTIONS FOR LISTING TAXABLE PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER</b>	
<p>List all items of taxable personal property subject to valuation by the Commissioner owned by the filing company on January 1 in printed attachments and in the prescribed Excel file format. If any such property was reported by another telephone or telegraph company in the prior filing year, list it separately and provide the name and address of the former filing company.</p> <p><b>A. POLES, WIRES, UNDERGROUND CONDUITS, WIRES AND PIPES.</b> Wires include fiber optic cables, copper wires and other similar strands strung on poles or in conduit. List such property in each city or town in the format provided in the excel spreadsheet posted on the website. Poles and Wires over Public Ways are to be included in the listing with those over private ways on the Property Schedule by selecting the correct pull-down description. (There is no longer a "Public Ways" label.)</p> <p><b>B. MACHINERY.</b> A generator is machinery used in manufacture and for telephone/telegraph purposes. Switching and routing equipment is machinery used in the conduct of business for telephone/telegraph purposes, not machinery used in manufacture. Please refer to the spreadsheet for a more expansive list of types of machinery, as the preceding is intended to be for illustrative purposes and is not exclusive.</p> <p><b>C. ORIGINAL COST.</b> The total cost of the acquisition and commissioning of the property at the time of installation as part of the system. This cost includes the amount of money paid for the property in an arms length transaction and does not include allocated account entries as a result of acquisition by merger, take-over, bankruptcy or any other asset impaired accounting treatment. It also includes the amount of money paid by a third party if the third party transfers the property to the company for other consideration or by grant or gift, such as a contribution in aid of construction (CIAC). The total cost includes all direct and indirect costs and shall conform as closely as possible to the Federal Communications Commission uniform system of accounts under 47 CFR 32.2000 et seq, and particularly to 32.2000(a)(2, 3 &amp; 4), (b)(2)(i &amp; ii), (c)(2)(i - xiv), (f)(9)(ii), (j) and (j). In addition, report all construction work in progress (CWIP) as a separate account and all property acquired through contribution in aid of construction (CIAC) as a separate account.</p> <p><b>D. NEW GROWTH.</b> Property that is new to a community this year, whether it is new, used or transferred from another community, must be listed separately on the asset list and an "X" must be placed in the appropriate column.</p>	
<b>5. SIGNATURE</b>	
<p><b>SIGNATURE OF TREASURER.</b> A return must be signed and sworn to by the company's treasurer. This return and all accompanying lists and statements, including the Form 5941 Appendix, have been prepared or examined by me and include all taxable personal property subject to valuation by the Commissioner owned or held by the maker of this return on January 1st, and are true, correct and complete to the best of my knowledge and belief as required by G.L. c. 59, §41.</p>	
<p>Subscribed this <u>28</u> day of <u>February</u> 2020 under the penalties of perjury.</p>	
<p>Signature: <u></u>          Print Name: <u>Steven L. Childers</u>          Address: <u>121 South 17th Street</u>  <u>Mattoon, IL 61938</u></p>	<p>E-Mail: <u>propertytax@consolidated.com</u>          FAX number: <u>(217) 235-1058</u>          Telephone: <u>(217) 235-5178</u></p>

For your Return to be considered complete, all information requested must be provided.

**2. GENERAL INFORMATION**

- A. WHO MUST FILE A RETURN. This Return (State Tax Form 5941) must be filed each year by all telephone companies, including individuals, partnerships, associations, trusts, corporations, limited liability companies and other legal entities, that own taxable telephone personal property, subject to valuation by the Commissioner of Revenue, situated in any city or town of the Commonwealth on January 1. OWNERS OF PROPERTY, NOT HOLDERS OF IRUs, MUST REPORT PERSONALTY. Cellular/mobile telecommunications service providers that do not provide substantial landline telephone services are not considered telephone companies and are not subject to central valuation. Such companies must file a State Tax Form 2MT with local boards of assessors. Cellular/mobile telecommunications companies that also provide substantial landline telephone service must file Form 5941, 5941 Appendix and 5941 Appendix II to be considered for central valuation as a telephone company. Any such company should also file Form 2MT with the local boards of assessors, but advise them that the company is seeking to be valued centrally as a telephone company.

**GENERAL INFORMATION (continued)**

- B. **WHEN AND WHERE RETURN MUST BE FILED.** Returns must be filed by March 1 with the Bureau of Local Assessment, P.O. Box 9569, Boston, MA 02114-9569. A return is not considered filed unless it is complete. The return must be submitted electronically in the Excel format requested to [bladata@dor.state.ma.us](mailto:bladata@dor.state.ma.us) along with a printed and signed copy. See Part 3 for taxable personal property subject to valuation by the Commissioner. **All returns must include Appendices I & II.**
- C. **PENALTY FOR FAILURE TO FILE, FILING LATE OR FILING OF AN INCOMPLETE RETURN.** If no return is filed for the fiscal year, the company may be barred from any appeal of the Commissioner's determination of value, unless the company was unable to comply for reasons beyond its control. G.L. c. 59, §41.
- D. **USE OF RETURN.** The Bureau of Local Assessment uses the information in the return to determine whether the property is subject to valuation by the Commissioner, and, if appropriate, its fair market value.
- E. **AUDITS.** The Commissioner of Revenue may audit your books, papers, records and other data in order to determine whether you have accurately reported all taxable personal property. Any audit will be conducted within 3 years of the date your return is due or filed, whichever is later. The Commissioner may certify an amended valuation for unreported or inaccurately reported taxable personal property discovered by the audit to the owner and the assessors of the city or town where the property is situated within 3 years and 6 months after the due date of the return or the date the return was filed, whichever is later. The board of assessors shall assess and commit to the collector of taxes an additional tax to the owner within 2 months of the date of the amended certification and the owner may appeal the valuation to the Appellate Tax Board within 1 month of the date the additional assessment notice is sent. G.L. c. 59, § 42A.

**3. TAXABLE PERSONAL PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER OF REVENUE**

The commissioner is required to value telephone machinery, poles, wires, underground conduits, wires and pipes of telephone companies owned as of January 1 preceding the filing date. G.L. c. 59, §39. Lists of all other taxable personal property must be submitted to local boards of assessors in the municipalities in which the property is situated, under G.L. c. 59, §29. G.L. c. 59, §41. Taxable property subject to central valuation will vary, depending on the legal form of ownership of the property. Corporations, and other legal entities treated as corporations for federal income tax purposes (not including disregarded entities), will be valued on all poles and wires over public and private property, underground conduits, wires and pipes in public or private property, and machinery used in manufacture or in supplying and distributing water. G.L. c. 59, §39; G.L. c. 59, §5, Cl. 16(1); & G.L. c. 59, §18(5). This particularly includes machinery used in the generation of electricity, including emergency and back up generators and uninterruptible power supplies (UPS) connected to the power generation and distribution system. Other legal entities will be valued by the commissioner on all poles, wires, underground conduits, wires and pipes situated in the commonwealth, and all machinery used for telephone purposes. G.L. c. 59, §39; G.L. c. 59, §18. Property constructed and in service, cable without lit fiber (aka dark fiber or dark cable), construction work in progress (CWIP), spares and telephone property no longer in service but not yet removed is taxable and must be appropriately listed.

**4. INSTRUCTIONS FOR LISTING TAXABLE PROPERTY SUBJECT TO VALUATION BY THE COMMISSIONER**

List all items of taxable personal property subject to valuation by the Commissioner owned by the filing company on January 1 in printed attachments and in the prescribed Excel file format. If any such property was reported by another telephone company in the prior filing year, list it separately and provide the name and address of the former filing company.

- A. **POLES, WIRES, UNDERGROUND CONDUITS, WIRES AND PIPES.** Wires include fiber optic cables, copper wires and other similar strands strung on poles or in conduit. List such property in each city or town in the format provided in the excel spreadsheet posted on the website. Poles and Wires over Public Ways are to be included in the listing with those over private ways on the Property Schedule by selecting the correct pull-down description. (There is no longer a "Public Ways" label.)
- B. **MACHINERY.** A generator, or uninterruptible power supply (UPS), is machinery used in manufacture and for telephone purposes. Switching and routing equipment is machinery used in the conduct of business for telephone purposes, not machinery used in manufacture. Please refer to the spreadsheet for a more expansive list of types of machinery, as the preceding is intended to be for illustrative purposes and is not exclusive.
- C. **PROPERTY RETIRED FROM SERVICE.** Reported property completely mechanically disconnected, completely abandoned, or permanently removed from any service in the operation of a telecommunications network. The date of retirement is the date the reported property is eliminated from use or service.
- D. **HISTORICAL ORIGINAL COST.** The total cost of acquisition and commissioning of the property at installation as part of the system. This cost includes the amount of money paid for the property in an arms length transaction and does not include allocated account entries as a result of acquisition by merger, take-over, bankruptcy or any other asset impaired accounting treatment. It also includes the amount of money paid by a third party if the third party transfers the property to the company for other consideration or by grant or gift, such as a contribution in aid of construction (CIAC). The total cost includes all direct and indirect costs and shall conform as closely as possible to the Federal Communications Commission uniform system of accounts under 47 CFR 32.2000 et seq, and particularly to 32.2000(a)(2, 3 & 4), (b)(2)(i & ii), (c)(2)(i - xiv), (f)(9)(ii), (i) and (j). In addition, report all construction work in progress (CWIP) as a separate account and all property acquired through contribution in aid of construction (CIAC) as a separate account.
- E. **NEW GROWTH.** Property that is new to a community this year, whether it is new, used or transferred from another community, must be listed separately on the asset list and an "X" must be placed in the appropriate column.

**5. SIGNATURE**

**SIGNATURE OF TREASURER.** A return must be signed and sworn to by the company's treasurer.

This return and all accompanying lists and statements, including the Form 5941 Appendices, have been prepared or examined by me and include all taxable personal property subject to valuation by the Commissioner owned or held by the maker of this return on January 1st, and are true, correct and complete to the best of my knowledge and belief as required by G.L. c. 59, §41.

Subscribed this 25th day of February under the penalties of perjury.

State of Massachusetts

Docket D.T.C. 21-4

Respondent: Carole Williamson

Title: Director, Regulatory

**REQUEST:** Massachusetts Department of Telecommunications and Cable,  
Information Request, Set 1

**DATED:** 08/12/2021

**ITEM DTC 1-11:** Please refer to MDTC Tariff No. 5 and the attached FCC Form 499 Filer Database Information. The tariff refers to the filer as “Taconic Telephone Corp. d/b/a Consolidated Communications”. The Form 499 Filer Database Information refers to the legal name of the reporting entity as “Taconic Tel. Corp.” with a “doing business as” name of “Taconic Telephone Corp.” and a holding company of “Consolidated Communications Holdings, Inc.” Please clarify all legal, “doing business as”, or marketing names, and holding companies used for Taconic’s local exchange and long-distance voice services in Hancock, MA.

**REPLY:** The legal and d/b/a names for the local exchange carrier are Taconic Telephone Corp. d/b/a Consolidated Communications. The legal and d/b/a names for the long distance company are Taconic TelCom Corp. d/b/a Consolidated Communications Long Distance.

The Secretary of Commonwealth filings with the legal names for Taconic Telephone Corp. and Taconic TelCom Corp. accompany this response as Attachments A and B.

The Town of Hancock filings with the “doing business as” names also accompany this response as Attachment C.

The holding company is Consolidated Communications Holdings, Inc.
